11:34 AM me: woof

-30 minutes

12:04 PM dsherlockb: growls

12:05 PM me: bite dsherlockb: pounces

12:06 PM me: scratches face dsherlockb: rolls over me: you give up fast dsherlockb: to dodge

counter attacks

12:07 PM me: in dog language any sort of roll is a recognition of dominance by the other dog

so i will take it as a quick and easy win ;-p

12:08 PM dsherlockb: decieved, nose slobber smash

12:09 PM me: lick

dsherlockb: menacing howl

me: grimmace

dsherlockb: electric shock from dog collar 12:10 PM **me**: pushes electric shock button again

dsherlockb: fur starts smoking

me: gets out bbq sauce

12:11 PM dsherlockb: rolls over again. all four paws up in air stiff

me: pours on bbq sauce and eats ribs

mmmmm tasty

12:14 PM just remember thai food on saturday... laptop battery is dead

dsherlockb: aight

11:22 AM dsherlockb: Hey Ben I saw Hillary today, she really wants to get away from Gargi

for some reason

me: so gargi told me

11:23 AM tim got a donut from lecture, but decided not to share with anyone

dsherlockb: I bet he shared the hole

11:24 AM me: tim is sitting next to kirsten right now

im sure if she was here earlier, he would have shared with her

dsherlockb: Kirsten is the princess right?

me: yep

11:25 AM dsherlockb: Probably would have given his entire donut

me: i know.... that is just rude too

11:26 AM did you finish the take home?

dsherlockb: Yep, I got a 58 on the last quiz ;(

me: so did I

11:27 AM got a 90something on the first and a 50 something on the second

dsherlockb: Those questions were bananas **me**: grading is just so wildly inconsistent

11:28 AM **dsherlockb**: too many different professors **me**: too many different boring professors to be exact :-p

dsherlockb: Indeed

11:29 AM me: you were lucky to skip class on monday

it took her 15 minutes just to talk about the intro to the lecture

11:30 AM dsherlockb: My fav is when the prof spends half the lecture on their title slide

11:31 AM How did u not get sick from Gargzilla?

me: i am the only person not to:)

11:32 AM my immune system works perfectly

dsherlockb: You must make anti-gargi antibodies

me: hahahah, my immune system pre-emptively attacks her

11:33 AM dsherlockb: Once I recover its payback time

11:34 AM me: just lick your gerbels, see what infections you can get

dsherlockb: eww

preferably, payback that doesn't involve further harm to myself

me: hahahahah

11:35 AM really good payback takes sacrifice

11:36 AM dsherlockb: This payback business is starting to sound like a lot of work

me: it always is

dsherlockb: Maybe I can hire a scary midget clown to follow her around

11:37 AM me: that would be creepy just as long as it is invisible to me dsherlockb: hmm that's tough

11:38 AM I know
I will bring a dozen donuts
and only share them with princess
me: make sure they are all chocolate glazed
dsherlockb: those her favorite?

me: yep

11:39 AM dsherlockb: Revenge is sweet

me: mmmmm revenge

11:40 AM **dsherlockb**: muwhahahaha

11:37 AM me: hey

11:38 AM dsherlockb: What's up my negro blanco

me: http://www.boardofwisdom.com/default.asp?topic=1005&listname=geek

11:40 AM **dsherlockb**: I likes this **me**: i really like the last one

11:41 AM dsherlockb: I prefer the 1.0 programming one

5 minutes

11:46 AM **dsherlockb**: Dancing paper clips are God **me**: they are good distractions when everything else fail

11:50 AM dsherlockb: I wanna see one pop up during the blue screen of death. "It looks like your computer has crashed, can I be of any assistance?"

11:51 AM me: they should have made it give only one suggestion for every problem: "please restart your computer"

11:52 AM **dsherlockb**: That's usually a good solution though, we wouldn't want applicable advice

1:08 PM me: do you have your other neuroscience course right after the biological basis neuroscience course?

if not we could play ping pong a couple of those days

1:09 PM dsherlockb: Dunno what times my other courses are

42 minutes

1:51 PM me: i guess you will find out your class schedule when you have them

1:53 PM dsherlockb: Yea, it"s a backward system

1:54 PM me: just randomly walk in to conference rooms until someone tells you you have to be there

1:55 PM dsherlockb: I'll do that if they serve food

me: that would be a good plan, but dont think many conferences give food

1:56 PM dsherlockb: Maybe one on obesity

1:59 PM me: that would be pretty sweet if they had donuts, pizza, and cake

2:00 PM dsherlockb: Now i'm getting hungry

5 minutes

2:06 PM me: just think of sugar plums and turkish delights

2:07 PM dsherlockb: Tried em both, they are old deserts for a reason

2:08 PM me: true....

backlava (or however you spell it), is old and awesome

2:09 PM dsherlockb: Aww, I do enjoy baklavah.

To:

11:33 AM me: so..... is there a reason why you tried to kill me last night?

11:34 AM dsherlockb: Wasn't me, must have been a doppleganger.

me: it was def you

11:35 AM you even annouced yourself

dsherlockb: Hmm, what murder attempt approach did I take?

11:36 AM me: you tried to smother me... which as rather odd... i must say

11:38 AM dsherlockb: That does seem like a good method. Little evidence left behind, no blood

trail or loud noise, which would incriminate me. But it def wasn't me, bc ur still alive:)

me: i escaped:-p

11:39 AM dsherlockb: Impossibru

me: cause i saw it coming

11:40 AM dsherlockb: Can't see me, I was in creep stance

me: paranoia beats creep stance

11:41 AM **dsherlockb**: You're paranoid? **me**: only when peop[le try to kill me

or want to for that matter

11:42 AM dsherlockb: Pfft, I don't want to kill yuh.

Just scare the living daylights out of yuh

me: deny after you get outted :-p 11:43 AM dsherlockb: No homo

>.>

me: you shouldnt deflect you trying to kill me to the fact you like little boys

11:44 AM dsherlockb: No pedo

<.<

me: your shifty eyes say otherwise

11:45 AM dsherlockb: So, maybe you dreamed it all

me: dreaming about you killing me? maybe.... you with little boys? I think i can dream better

things than that

dsherlockb: And turned my 'icecapade' into something else

11:46 AM me: there is really no explanation for you in david bowie-esq tights

dsherlockb: A dream within a dream

trippy

11:47 AM me: we could still be in a dream

dsherlockb: Inception!

Can you pinch Gargi for me. She got me sick again.

11:48 AM me: if i pinch... she punches.... dont know if thats a good tradeoff

dsherlockb: Oh man we're all in the same dream

it will wake her up though

me: the question now, is who is the dreamer

11:49 AM if she is the dreamer, we would be screwed

dsherlockb: Whirls around in a circle a bunch of times I'm the totem

11:51 AM me: so you are saying that you are the dreamer?

dsherlockb: I'm the object that allows the dreamer to maintain their grasp on reality

11:52 AM AKA Gargi's rock

me: so, you are trying to kill me

by me waking the dreamer, i would be left here with you in the void

11:54 AM dsherlockb: I dunno how to convince a paranoid person I'm not trying to kill them.

me: by not telling them you are going to kill them?

11:55 AM dsherlockb: That's exactly what a killer would say though

me: so where does that put you given you told me you were going to kill me?

11:56 AM dsherlockb: I told you I was going to and not going to so now its up to a twisted mind to figure that out

12:01 PM me: not really.... cause a nonmurderer would never admit to trying to murder someone freely that is

12:03 PM dsherlockb: Why not?

12:06 PM me: if you have no plans to kill me, and think its fine for a nonmurderor to go around telling people they want to kill someone, you should announce to the neuro class that you are going to kill me

12:07 PM **dsherlockb**: That's different, then i'm telling other people and not the murderee This makes it less scary

12:08 PM me: murderee assumes someone will get murdered.... hence supporting my theory you actually want to kill me

dsherlockb: Or make u more paranoid;) 12:09 PM **me**: is it paranoia if its true?

12:10 PM plus you would just be making it harder for you to creep up on me

dsherlockb: Which doesn't make sense for a murderer does it?

me: if the murderer is psychopathic it does

12:11 PM dsherlockb: Well whether or not i'm insane or not is an entirely different issue.

12:12 PM me: not if it is fueling your murderous rage

12:13 PM **dsherlockb**: Then I have a reasonable explanation for my demented actions towards you

12:14 PM me: dont think demented is the correct term

unless you have some false belief about me that you are not telling me about

dsherlockb: demented = crazy or insane

12:15 PM me: demented means suffering of dementia

dsherlockb: one version

me: but its the most apt definition

like psychotic being suffering from psychosis

12:16 PM despite its other uses

12:18 PM dsherlockb: Pretty sure i'm a psychotic being

me: you hallucinate often or are you demented>

12:19 PM cause psychotic emcompasses dementia

dsherlockb: Nah, no hallucinations

me: what kinds do you have

12:21 PM dsherlockb: Psychotic delusions

me: what do they tell you to do?

12:22 PM dsherlockb: That's a secret B-) It would seem you have persecutory delusions.

12:23 PM I think if I had a choice I would rather have my type of delusion

me: cant be delusions if you confrim them

12:24 PM dsherlockb: So i've cured you, eureka!

me: do you have delusions of granduer?

12:25 PM dsherlockb: Nope

12:26 PM me: does your murderous desire towards me extend to a nihilistic delusion of me not

existing?

12:27 PM dsherlockb: My delusion isn't on wikipedia heh

me: hahahah

where can i find info on it?

12:29 PM dsherlockb: Dunno. I don't believe it's a common delusion

me: delusion that you should be the only ben garcia?

12:30 PM dsherlockb: That's a new one. There can be only one (Highlander)

me: we can call it the james highlander syndrome

9 minutes

12:40 PM me: are you dieting?

12:41 PM dsherlockb: No, I eat two big meals a day instead of 3 medium ones a lot

11:54 AM dsherlockb: Yo Ben what lab are yuh in now?

me: andy white pediatric neuro you know dan from the neuro class

dsherlockb: yep

me: he works in my lab, just not with andy

11:55 AM dsherlockb: Is it clinical, where yuh see the kiddies

me: nope, just see rats

dsherlockb: Or more of an office thing

11:56 AM me: what i am doing is just an office thing

though dan said i can watch him with the rats **dsherlockb**: What are you doing to the rats?

me: stick electrodes in their brains feed them drugs that make them seize

11:57 AM dsherlockb: Probably couldn't do that in children;)

11:58 AM me: nope... that would just be cruel;)

11:59 AM would you be interested in watching the hunger games?

dsherlockb: I have heard about it on the interwebs

sure

me: dunno the date or time, just seeing if anyones interested

12:33 PM dsherlockb: Still conscious eh

12:34 PM me: barely....

tired as shit

enjoying your lab?

dsherlockb: It's a winterwonderland

me: http://en.wikipedia.org/wiki/Fermi_paradox

is an interesting read if you are bored 12:35 PM i like this amount of snow roads are clear but most things are white

dsherlockb: Too muddy, it makes my asian car brown

12:36 PM See yuh later today **me**: dont go off roading :-p

see you later
